

## COAD is presenting Speed-doors in 2017 Propak Asia

COAD have a good reputation thanks to their strengths

---

COAD will participate in '2017 Propak Asia' held in Bangkok, Thailand from June 14th to 17th.

The exhibition is an international exhibition with more than 24,000 visitors, and COAD will present various speed doors and overhead door.

COAD's industrial automatic door is boasting excellent sealing power. COAD-1, the basic type industrial automatic door, is strong in the wind. Because its combination of wind bar and a wind bar locking device in the frame.

COAD-3 is a self-repairing type automatic door made of zipper type. It is normally locked tightly. When a collision occurs, the zipper is opened. Because it is a recovery type, it has the advantage of low maintenance cost.

COAD official said, "Propak Asia is one of the exhibitions that have been doing well every year in the company which local subsidiary in Thailand." and "We will use it as an opportunity to demonstrate the superior technology of COAD to overseas customers."

Meanwhile, COAD participated in the '2017 autoMEX' exhibition held in Malaysia this month, got a good response from the visitors.
